1 MIS

Introduction

The MIS is a centralised Management Information System provided as part of the Core IT Service Element which provides TfL with an end-to-end reporting function across all Service Elements for all reporting other than Business Operations and Enforcement Operations PI reporting. This section includes requirements on PI and standard reporting, MIS design, scalability and extensibility and support and maintenance.

1.1	Genera	al		

M1.1.1	R1	Mandatory

The Service Provider shall provide a Management Information System (the MIS) for use by TfL.

M1.1.2	R1	Mandatory

The Service Provider shall ensure that all Standard Reports are generated from the MIS and that all Performance Indicator Reports are capable of being generated from the MIS

M1.1.3	R1	Mandatory

The Service Provider shall ensure that the end-to-end Ad Hoc Report, direct access and Standard Report functions against all the Data elements stored in the MIS data warehouse.

M1.1.5	R1	Mandatory
Sources of [Data alamanta atarad in the MIS data warahayaa ahal	lingludg but not bo

Sources of Data elements stored in the MIS data warehouse shall include but not be limited to:

- Business Operations Service Element;
- Enforcement Operations Service Element;
- Detection and Enforcement Infrastructure;
- Retail; and
- Core IT Service Element.

M1.1.6	R1	Mandatory
The MIS s	hall, as a minimum, receive, store and process the	high-level categories
of Data as	specified in the Logical Data Model, as detailed in a	appendix 40: Solution
Architectu	re.	
M1.1.8	R1	Mandatory
The Servi	ce Provider shall migrate historic MIS Data into	the MIS from legacy
sources.		
1.2 Plan	d Standard Reporting	
M1.2.1	R1	Mandatory
The MIS s	shall provide the Core IT Performance Indicator Re	eports as specified in
schedule 5	5: Service Level Agreement.	
	R1	Mandatory
M1.2.3		
M1.2.3		
	hall provide the option to add further Performance Ir	ndicators in relation to

Mandatory in relation to the Core ne previous period's becified in schedule 5: Mandatory uce the Performance reement. Mandatory

The MIS s	shall provide tools and access privileges tha	t permit Users to write their
own Ad He	oc Reports, use drill through methods, and cre	eate tables.
M1.3.2	R1	Mandatory
The Servi	ce Provider shall ensure that MIS team Use	ers are provided with tools,
have app	ropriate authority, and MIS Systems have	Capacity for operation in
accordanc	e with this Agreement.	
1.4 Desi	gn	
M1.4.1	R1	Mandatory
TI . 140		
	shall be based upon well supported and lead	ding industry database, EIL
-	ing package(s).	
M1.4.2		RFI
[This requ	iromant has been removed because it was an	
	irement has been removed because it was an R1	-
M1.4.3		Mandatory
The MIS s	hall implement an architecture comprising dis	tinct scheme and processing
to support		and processing
	age for validation and processing of inbound [Data
Data S		
	ing Schemata; and	
Sandb		
M1.4.4	R1	Mandatory
111.4.4		
The Servi	ce Provider shall implement the MIS in such	a way that the MIS analysis
	ting functions do not impact the performance	
System.		
M1.4.5	R1	Mandatory
The Servi	ce Provider shall ensure that an independer	t load stage is provided for
each MIS	Data Provider which provides MIS Data. For	the avoidance of doubt this
includes th	ne Core IT Service Element.	
M1.4.6	R1	FYI

		1			
Each exter	nal source of MIS Data shall be responsible for p	ushing Data to its			
designated load stage. This Data shall be received via the MIS Interface(s) as					
specified in	specified in appendix 41: Interface Specification.				
M1.4.7	R1	Mandatory			
The Servic	e Provider shall provide a mechanism as part of the	Core IT System for			
determining	all Changes that have occurred to the Operational	database(s) within			
the Core IT	System and providing this delta information to the N	/IS. It is expected			
that this de	Ita should be determined using the history Data tabl	es associated with			
the Operat	onal database. For the avoidance of doubt this del	ta shall include all			
intra-day cł	nanges to the Operational Data.				
M1.4.8	R1	Mandatory			
The MIS s	hall validate all the Data in each load stage and tra	nsfer the validated			
Data to the	Data stage.				
M1.4.9	R1	Mandatory			
The Servic	e Provider shall ensure that validation includes Data	referential integrity			
checks and	Data range checks.				
M1.4.10	R1	Mandatory			
The Servic	e Provider shall ensure that the Data stage consi	sts of a relational			
database w	ithin the data warehouse.				
M1.4.11	R1	Mandatory			
The Se	rvice Provider shall ensure that the Data stage is	in the appropriate			
r	normal form.				
M1.4.12	R1	Mandatory			
The Servic	e Provider shall ensure that once the Data has beer	transferred to the			
data wareh	ouse, the MIS shall populate the Reporting Schema	tier in a way which			
maintains consistency at this level.					
M1.4.13	R1	Mandatory			

	e Provider shall provide a Sandbox area within t	the data warehouse
which enab	les Users to create their own permanent tables.	
M1.4.14	R1	Mandatory
	e Provider shall ensure that Users are able to pull Da	ata into the Sandbox
from other t	ables in the data warehouse.	1
M1.4.15	R1	Mandatory
The Servic	e Provider shall ensure that Users are able to ma	
U	cheduled jobs outside of the Working Day to pull	5
	provide and schedule appropriate extract jobs via	the Change Control
Request Pr

The MIS shall provide one or more mechanisms for correcting, or compensating for,				
any erroneous Data held within the MIS. All mechanisms should be audited and be				
subject to the necessary governance controls.				
M1.4.22	R1	Mandatory		
This MIS sha	all automatically log all amendments to the Data.			
M1.4.23	R1	Mandatory		
In the event	that Data is amended within the MIS, the Service Pro	ovider shall provide		
a mechanis	m for propagating the amendment through the othe	er tiers of the MIS		
database.				
M1.4.24	R1	Mandatory		
The Service	e Provider shall ensure that the MIS complies v	vith TfL's security		
requirement	s as specified in schedule 14: Security Policy. In pa	articular, access to		
the MIS sha	Il be secure and only authorised Users shall be able to	o gain access.		
M1.4.25	R1	Mandatory		
The MIS sh	all provide security features that support User and	group level access		
control to Da	ata, reporting functions and other features. Access c	ontrol shall include		
read, search	n, insert or append, update, and delete privileges.			
M1.4.26	R1	Mandatory		
Where agree	ed upon with TfL, the Service Provider shall be perm	nitted to use native		
database re	plication of PMIS data from both Business Operation	s and Enforcement		
Operations t	to the Core Solution Element. If the Service Provider	is permitted to use		
this option th	nen the native database replication must be made ava	ailable as an option		
to all Solutio	to all Solution Elements. The Service Provider must still deliver the MIS Interface(s)			
specified in appendix 41: Interface Specification.				
1.5 Scalab	bility and Extensibility			
M1.5.1	R1	Mandatory		
The Service	Provider shall implement the MIS to be scalable and	extensible		
	R1			
M1.5.2		Mandatory		

The Servio	ce Provider shall implement the MIS to be sca	alable to two (2) times initial
volumetric	requirements without the need for a Hardware	e change.
M1.5.3	R1	Mandatory
The Servi	ce Provider shall ensure that the design and	implementation of the MIS
supports t	he introduction of new MIS Data sources.	
M1.5.4	R1/R2	FYI
	Data sources will be introduced under the	e Change Control Request
Procedure).	
M1.5.5	R1	Mandatory
·	pated that the volume and structure of MIS I	0 0
the life of	the MIS. The Service Provider shall design a	nd implement the MIS such
that minim	al effort is required to implement modifications	to support such changes.
M1.5.6	R1	RFI
[This requ	irement has been removed because it was an	RFI]
1.6 User	Requirements	
M1.6.1	R1	Mandatory
The Servio	ce Provider shall provide Users with Web-base	ed client access to the MIS.
M1.6.2	R1	RFI
(T) :		
	irement has been removed because it was an

M1.6.5	R1	RFI

[This requirement has been removed because it was an RFI]					
M1.6.6	R1	Mandatory			
MIS shall be	available from the following locations.				
TfL build	ings;				
Enforcen	nent Operations Service Element Pound(s) and o	other Enforcement			
Operatio	Operations Service Element locations;				
Business	and Enforcement Operations Service Elements Cont	act Centre(s); and			
Business	Continuity Premises.				
M1.6.7	R1	Mandatory			
The Service	Provider shall provide concurrent access for all User	rs of MIS and shall			
initially provi	de all necessary User licences for fiftyfive (55) Users.				
M1.6.8	R1	Mandatory			
The Service	Provider shall provide TfL with the option to add addi	tional Users.			
M1.6.9	R1	Mandatory			
The Service	Provider shall ensure that the MIS provides the new	cessary scalability,			
both in terms	s of Hardware and Software, to support these addition	nal Users.			
M1.6.10	R1	Mandatory			
The Servic	e Provider shall provide and support these ac	lditional Users in			
accordance	with a pricing structure agreed with TfL prior to contra	ct award.			
M1.6.11	R1	FYI			
The MIS will	The MIS will be accessed by the following groups of TfL Users:				
Enforcen	nent Operations Service Element;				
Business Operations Service Element;					
MIS team;					
Directors of Congestion Charging;					
• Selected individuals from the Strategy and Policy/Technical and Commercial					
teams; and					
 any further group of individuals that TfL nominates. 					

	R1		
M1.6.12		Mandatory	
The MIS et	all allow Data to be exported from the reportin	a tool in Comma	
The MIS shall allow Data to be exported from the reporting tool in Comma Separated Value format that is compatible with the Microsoft Office suite.			
	R1

The Service	Provider shall provide the necessary Support Pers	sonnel to maintain	
	administrate the MIS.		
M1.7.2	R1	Mandatan	
IVI I . <i>T</i> . Z		Mandatory	
The Service	Provider shall be responsible for undertaking all a	ctivities required to	
	maintain the provision of the specified reporting func	•	
-	ot be limited to:	,	
 loading D 	ata from the MIS Data sources;		
 maintenance of the MIS including back-up; 			
 provision of technical support to Users; 			
 Incident r 	nanagement;		
 functional 	I specification, implementation and Testing of change	es to the MIS; and	
 monitoring and tracking Data load and extract processes. 			
M1.7.3	R1	Mandatory	
The Service	Provider's support Personnel shall provide telephon	e support to Users	
during Working Hours.			
M1.7.4	R1	Mandatory	

The Service	Provider's support Personnel shall be responsible	for identifying any	
failure of the	MIS. This shall include, but not be limited to:		
failure to	receive expected Data from a MIS Data Provider;		
failure to process the received Data; and			
failure to	generate reports.		
M1.7.5	R1	Mandatory	
The Service	Provider shall initially record any failure of the M	IS as a Severity 2	
Incident.			
M1.7.6	R1	Mandatory	

The Service Provider shall provide appropriate User and technical Documentation to be approved by TfL for each MIS release. Documentation shall include, but not be limited to:

- the database tables; and
- the database structure.

M1.7.7	R1	Mandatory		
The Service Provider, at TfL's request and in accordance with schedule 9: Change				
Control Request Procedure, shall provide the necessary Support Personnel to				
implement the Changes to the MIS.				
1.8 Availability and Access				
M1.8.1	R1	Mandatory		
The Service Provider shall ensure that the MIS is available during Working Hours.				
M1.8.2	R1	Mandatory		
The Service Provider shall ensure that the MIS publishes consistent Data to Users				
of MIS at all times.				
M1.8.3	R1	Mandatory		
The Service Provider shall provide TfL with access to the MIS during Working				
Hours.				

R1	Mandatory		
The Service Provider shall ensure that by midday (12:00pm) each day, all MIS			
analysis and reporting functionality accurately reflects all Data received from MIS			
Data providers by 6am of that day.			
R1	Mandatory		
The MIS shall be available in accordance with the Service Levels for the Core IT			
	Provider shall ensure that by midday (12:00pm) reporting functionality accurately reflects all Data rs by 6am of that day. R1		

System availability specified in schedule 5: Service Level Agreement.
