

# Department for Transport

## **London Covid-19 Transport Task Force - Terms of Reference**

To ensure effective oversight of operational planning for transport into and within Greater London during the Covid-19 recovery period including:

- Ensuring public transport capacity into and within Greater London is maximised;
- Ensuring all necessary measures are in place to enable social distancing to be effectively managed on the transport network in accordance with published guidance including steps to: manage demand; manage queues and risk of crowding; and ensure steps are taken to protect employees and the public;
- Ensuring the cost/revenue implications of measures are factored into decision-making;
- Agreeing an ambitious programme to support active transport and switching to walking and cycling through the recovery period and beyond;
- Ensuring public messaging and communications on use of transport between TfL and DfT/HMG are aligned.

The Department for Transport will provide the secretariat for the London Covid-19 Transport Task Force.
