

A B C D E F G H I J K

This delivery map for **Kimpton Industrial Park** has been produced by South London Freight Quality Partnership, Transport for London and the London Borough of Sutton.

The map is intended to help drivers find their way to the entrance of **Kimpton Industrial Park** by using the overview map.

The map shows preferred access routes so drivers can find specific business premises as efficiently as possible, minimising the disturbance to local residents.

For example, to get to **Kimpton Trade & Business Centre**, drivers should enter via Kimpton Park Way and turn left into Kimpton Road and turn right into Minden Road.

Drivers should remember that restrictions may not always be obvious, so the map may be useful both to regular drivers and those new to the area. For example, the London Lorry Control Scheme manages HGV movements on certain roads at night and over weekends. The area is also covered by the London Low Emission Zone. Operators are advised to plan their routes accordingly.

Businesses can help by promoting access routes on company letterheads, requisitions, purchase orders, making the map (or links to it) available from their own websites and promoting it to staff and visitors delivery drivers when they are on site.

For further information, or if you have any suggestions about how to improve the map then please contact:
